Description

We would like to cooperate with organizations which research and interpret Jewish cultural heritage. Our institution is located in a very center of the city, where used to live many Jewish families in the past. So far, the Jewish cultural heritage that is reflected in buildings, personal

histories and a significant contribution to the improvement of the social development of this city, was not the subject of cultural projects sufficiently. Therefore, with the aim to collect and interpret the “untold stories” of the local history we would like to build a partnership with organizations dealing with cultural heritage of Jewish society, organizations that develop the audience development methods, and finally, organizations working in the field of new media art and digital technology.
